C:\Users\youni\OneDrive\Documents\Drive\OneDrive\Desktop\Lab1>comp out.txt myout.txt
Comparing out.txt and myout.txt...
Files are different sizes.

Compare more files (Y/N) ? comp out.txt myout.txt
Compare more files (Y/N) ? Y
Name of first file to compare: out.txt
Name of second file to compare: myout.txt
Option:
Comparing out.txt and myout.txt...
Files compare OK

Compare more files (Y/N) ?
```

We ran the program and saved the valid output in myout.txt.

Then we displayed the file and compared it with the expected output file.

The comparison result shows that the files are identical.
